Welcome

what we do...

leading specialists  
in the design,  
manufacture and  
installation of bespoke  
banquette seating

Craftwood Interiors is one of the leading specialists in upholstered banquette seating, designing and creating quality bespoke seating. Incorporating over a century of expertise, your project could not be in better hands.

All of our seating is built in a quality controlled

environment and only shipped to site when virtually complete with a small amount of work remaining on site such as setting out the seating and fitting cappings and any other sundries required. This minimises down time at your venue, whether a refurbishment or new venue.

## How we make it...

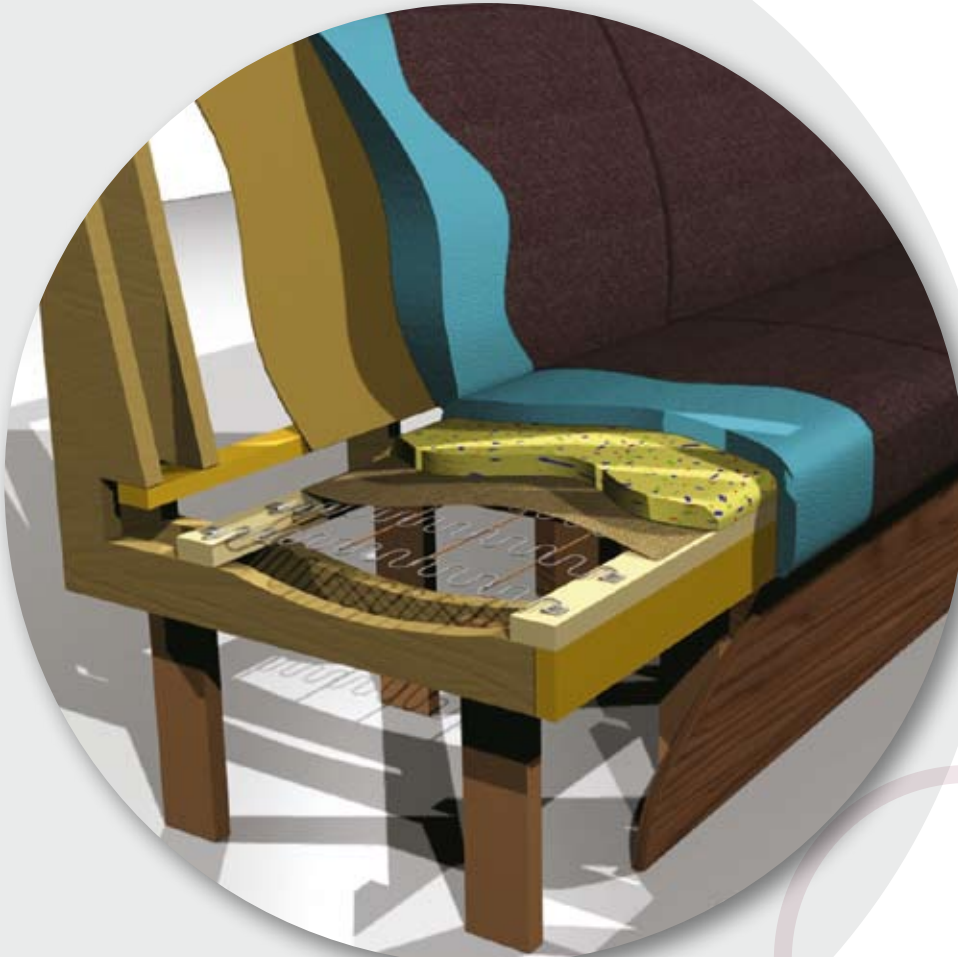

All our seating is manufactured by our highly skilled team of craftsmen in our manufacturing facility located in the UK, from where we ship our bespoke product.

## Undercover...

- At Craftwood Interiors we excel in producing upholstered fixed seating, bench seating or booth seating otherwise known as banquette seating.
- This type of seating can also be made with a platform base, depending on the type of venue or the longevity required of the seating itself. But for sheer comfort and dining well we recommend sprung base banquette seating.
- Styles can vary from entirely traditional to very contemporary.
- All seating at Craftwood Interiors incorporates fire retardant materials and our seating has been independently tested and certified to BS EN 15373: 2007 (Test Level 3 – Severe Use) – Strength, durability and safety requirements for non-domestic seating.
